Objective

Computer Science undergraduate seeking a Software Engineer role to apply strong foundations in **data structures, algorithms, and backend development**. Passionate about solving real-life problems through clean, scalable software solutions, and eager to contribute to a team where I can grow as an engineer while building products that make a genuine impact.

Education

Southeast University <i>Bachelor of Science in Computer Science and Engineering</i>	CGPA: 3.91 <i>Jul 2023 – Present</i>
Mirpur Cantonment Public School and College <i>Higher Secondary Certificate – Science</i>	GPA: 5.00 <i>2019 – 2021</i>
Adamjee Cantonment Public School <i>Secondary School Certificate – Science</i>	GPA: 4.94 <i>2014 – 2019</i>

Technical Skills

Programming Languages: C, C++ (Expert), Python, Java, SQL, Assembly, Bash
Web Technologies: FastAPI, Spring Boot, HTML, CSS
Databases: MySQL, SQLite
Tools & Platforms: Git, GitHub, Linux
Concepts: Data Structures & Algorithms, OOP, Socket Programming, Networking

Achievements

ICPC Asia Dhaka Regionalist (2025)
19th Place, CodeClash – Oscillon 2025
51st Place, BUBT IUCPC 2025
Participated in: SUST IUPC 2026, NDUB IUPC 2026, BUET IUPC 2026, CUET IUPC 2025, DUET IUPC 2025, AUST IUPC 2025
Codeforces: Pupil, 1230 max rating
CodeChef: 2 Star, 1572 max rating
LeetCode: 1584 max rating
Solved **1000+** problems across various competitive programming platforms

Projects

Todo App API | *Python, FastAPI, SQLite, JWT* GitHub
• Built a RESTful Todo API with **FastAPI**, supporting full **CRUD** operations for task management.
• Implemented **JWT-based authentication and authorization**, ensuring only authenticated users can access and manage their own data.
• Used **SQLite** for persistent storage, with structured, modular code for scalability and easy maintenance.
Sothik Bhara | *Java, Spring Boot* GitHub (*Ongoing*)
• Building a transport fare calculation system using **Java** and **Spring Boot** to compute correct, standardized fares for commuters.
• Designing the backend architecture with a focus on clean, maintainable, and scalable code following standard OOP principles.
• Actively iterating on core features as part of an ongoing personal project.

Activities

Southeast Computer Club (SEUCC) <i>Sub-Executive</i>	<i>Feb 2024 – Dec 2024</i>
MCPSC Drum Club <i>IT Secretary</i>	<i>Feb 2020 – Feb 2021</i>

Languages

Bangla: Native • **English:** Working Proficiency
